The Charlie Thirteen Training DVD Collection

In this collection of training DVDs you have a number of key aspects to safety that include: Safety is about going home at the end of your day.

Charlie puts an end to the “blame game”, and inspires workers to change their attitude. Charlie’s compelling message invites his listeners to realise behavioural change makes a difference to workplace safety. It challenges everyone from CEOs to workers to prioritise safety every day.

“Accidents are the result of the unsafe acts of people. Unsafe acts are people doing things they should not do, or not doing things they should.

Therefore, if people do what they are supposed to do, and stop doing things they should not do,
ALL (100%) ACCIDENTS CAN BE PREVENTED.”

[Alvin Trotman, CSP](#)
