

Piper Alpha – The Complete Training Package

The BBC Disaster series examines the world's most dramatic catastrophes using brilliant BBC footage, recreations and interviews with key decision makers.

This acclaimed docudrama approach speaks to the viewers in a way nothing else can. Now available in a totally new format with expert training support material developed by FutureMedia, this series awakens the need for safety consciousness at every level of an organisation. No one who experiences these powerful training programs will be unaffected by the essential lessons they convey.

BBC

Spiral to Disaster: The Piper Alpha DVD Training Package

The safety video is a gripping drama/documentary that recreates the three hours of the Piper Alpha tragedy. It provides the basis of discussion, analysis and training in a variety of OHS areas, including Risk Assessment, Permit to Work, Emergency Procedures, Safety Design and more. It utilizes a case study of the tragic event of the explosion and fire at the Piper Alpha oil platform in the North Sea which resulted in the loss of 167 lives.

Training Applications:

- Safety design issues
- Permit-to-work procedures
- Emergency procedures
- Safety and rescue systems – incl. equipment
- Management decision making – production output versus safety considerations
- Contractor and subcontractor issues
- Training and accreditation issues
- Handling and storage of dangerous goods
- Communication techniques
- Allocation of responsibility issues.

Available subtitled in Spanish and Portuguese

Duration: 30 minutes

Price: AUD\$595

BBC

Piper Alpha: The Human Price of Oil DVD Training Package

In this two hour training course the results of eyewitness accounts of the 35 survivors were fed to a Risk Analyst consultant to obtain likely causes.

Theories included the lack of securing Risk Analysts advice in the commissioning of rigs. The differing designs of the Norwegian oil platforms show higher levels of safety.

Duration: 40 minutes

Price: AUD\$595

What is the format of the programs?

The workshops follow an innovative case study approach and provide a highly-interactive learning environment in which participants undertake detailed analyses of each disaster. This means participants not only listen, but also apply the lessons learnt in order to formulate solutions specific to their own workplace; they not only learn about what went wrong, but also how it could have been avoided. Each comprehensive package includes the disaster video along with the following support material:

- Facilitator's Guide, including Facilitator's Checklist
- Facilitator's Slide Guide
- Participants' Handouts
- PowerPoint presentation

Paying for the Piper DVD

This powerful and deeply moving film features Ed Punched, a diver who survived the Piper Alpha disaster. Ten years after Piper Alpha Ed returns to Scotland and reunites with fellow survivors.

The video utilises extraordinary footage captured as the disaster unfolded and dramatic images recorded by a film crew on the first rescue helicopter. Ed revisits the rescue ship and recalls the experiences of fellow workers.

In a final moving scene he and a fellow survivor Andy Mochan sail out to the site of the Piper Alpha to lay a wreath. A compelling film for all in the Oil & Gas industry.

Duration: 44 minutes

Price: AUD\$290
